are aware of the contents and requirements of Part 6, section 54 of the Modern Slavery Act 2015, which requires certain organisations to develop a slavery and human trafficking statement each year. We have also developed and will maintain our specific modern slavery risk assessment which details areas of possible risk and relevant control measures for our business and supply chain, this will also be used as a benchmark for the measurement of the effectiveness of this statement. It also includes the consideration that the countries we purchase products from may cause an issue if they are considered to be high risk, although our products are purchased from the UK only.

The purpose of this statement is to prevent modern slavery in our organisation and our supply chain. To achieve this is to assess our supply chain where there is a risk of slavery and human trafficking taking place, and increase our transparency by ensuring our clients, employees and investors know what steps PTSG is taking to tackle modern slavery.

This statement was approved by the Board of PTSG on 27th January 2021.

The steps PTSG took during 2021 to ensure that slavery and human trafficking is not taking place include ensuring training is given to new members of staff and any requiring renewal training, ensuring approved suppliers and subcontractors are aware of their duties regarding modern slavery, complying with any customer requests for information regarding our and their modern slavery statements.

Training about slavery and human trafficking is carried out by all PTSG staff as part of the induction and renewal process. During 2021 training was given to 657 employees. Training will always be given as part of the induction process for all new starters and renewals.

PTSG are already undertaking procedures and have specific policies in place to ensure that modern slavery is not occurring in our organisation structure and supply chains as far as is reasonably practicable, our policies include, but are not restricted to the following:

- Corporate Social Responsibility Policy
- Code of Conduct Policy for Employees and Subcontractors/Suppliers
- Equality and Diversity Policy
- Ethical Sourcing Policy
- Industrial Relations Policy
- Responsible Sourcing Policy
- Whistleblowing Policy

Basic human rights

- Freedom of Association and Right to Collective Bargaining: Respect the right to form and join trade unions and bargain collectively.

- Compensation: Wages paid for a standard work week must meet the legal and industry standards and be sufficient to meet the basic need of workers and their families.

Recruitment Process

PTSG will ensure all relevant permissions are obtained prior to engaging any staff member, including those on temporary, casual or part-time contracts:

- We will ensure that the Immigration, Asylum and Nationality Act 2006 is adhered to including the engagement of migrant workers by obtaining the relevant permissions prior to work commencing
- We will ensure that fair and transparent recruitment procedures are adhered to at all times allowing for and the prevention of illegal working.
- The sector(s) PTSG operates in are not seasonal.

Responsible Sourcing

PTSG will ensure as far as is reasonably practicable that our suppliers, where necessary, have controls and processes in place to uphold the ten principles outlined in the UN Global Compact, specifically:

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights

Principle 2: make sure that they are not complicit in human rights abuses.

Principle 4: the elimination of all forms of forced and compulsory labour;

Principle 5: the effective abolition of child labour

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

Our due diligence processes in relation to slavery and human trafficking includes the requirement that all of our suppliers must, in all their activities, obey national and regional statutory requirements in the countries in which they are operating.

The approved supplier database will be monitored and reviewed annually by desktop audit; this modern slavery statement will be reviewed annually and made available to all employees, clients, stakeholders and public via the company website and discussed at the time of employee's induction.
